If so, specify: No

Brief description of filing. (If filing follows rates of an advisory organization, specify organization): GL Schools and Educators Legal Liability
Currently, a Rate Modification Factor is applied to the rated premium for both the School and Educators Legal Liability and School and Educators Employment Practices coverages. The Rate Modification factor is calculated by multiplying the Company Deviation Factor by the Package Modification Factor. The Hanover Insurance group proposes to remove the Rate Modification factor from the premium calculation for these coverages to bring rating in line with competitors and bring coverage premiums to an adequate level.

- * Adjusted to reflect all prior rate changes.
** Change in Company's premium level which will result from application of new rates.

15. Other		
<u>Line of Insurance</u>		

Does filing only apply to certain territory (territories) or certain classes?
If so, specify: No

Brief description of filing. (If filing follows rates of an advisory organization, specify organization): GL Schools and Educators Legal Liability
Currently, a Rate Modification Factor is applied to the rated premium for both the School and Educators Legal Liability and School and Educators Employment Practices coverages. The Rate Modification factor is calculated by multiplying the Company Deviation Factor by the Package Modification Factor. The Hanover Insurance group proposes to remove the Rate Modification factor from the premium calculation for these coverages to bring rating in line with competitors and bring coverage premiums to an adequate level.

- * Adjusted to reflect all prior rate changes.
** Change in Company's premium level which will result from application of new rates.
